**CAPITAL REQUIREMENTS**

Capital requirements in the ADI is determined by the risk weights of the relevant assets held with the minimum required capital to over 8% of the risk weighted assets. The ADI maintains a capital policy level of Minimum 13.50% and a capital target of 15.50%. The level of capital as at 30 June 2019 is 15.03%.

The risk weighted assets for each asset grouping as set out in the table below is determined by the APRA Prudential Standards APS 112. These are prescribed risk weights to measure the level of risk of based on the nature and level of security supporting the assets recovery.

The risk weighted assets held as at the end of the quarter ended 30 June 2019 is as follows

**CREDIT RISK**

**(i) CREDIT RISK – INVESTMENTS**

Surplus cash not invested in loans to members are held in high quality liquid assets. This included the funds required to be held to meet withdrawal of deposits by members of the ADI.

The ADI uses the ratings of reputable ratings agencies to assess the credit quality of all investment exposure, where applicable, using the credit quality assessment scale in APRA prudential Guidance in APS112. The credit quality assessment scale within this standard has been complied with.

The table D below excludes the Equities and off balance sheet exposures. Off balance sheet exposures are set out in the table F that follows

The exposure values associated with each credit quality step are as follows in Table D:

**CREDIT RISK – LOANS**

The classes of loans entered into by the ADI are limited to loans; commitments and other non-market off-balance sheet exposures. The ADI does not enter into debt securities; and over-the-counter derivatives.

**Impairment details**

The level of impaired loans by class of loan is set out below. In the note below -

- Carrying Value is the amount of the balance sheet gross of provision (net of deferred fees)
- Past due loans is the 'on balance sheet' loan balances which are behind in repayments past due by 90 days or more but not impaired
- Impaired loans are the 'on balance sheet' loan balances which are at risk of not meeting all principle and interest repayments over time
- Provision for impairment is the amount of the impairment provision allocated to the class of impaired loans
- The losses in the period equate to the additional provisions set aside for impaired loans, and bad debts written off in excess of previous provision allowances.

The impaired loans are generally not secured against residential property. Some impaired loans are secured by bill of sale over motor vehicles or other assets of varying value. It is not practicable to determine the fair value all collateral as at the balance date due to the variety of assets and condition

The analysis of the ADI's loans by class, is as follows in Table E

**General Reserve for Credit Losses**

This reserve is set aside to quantify the estimate for potential future losses in the loans and investments.

In addition to the provision for impairment, the board has recognised the need to make an allocation from retained earnings to ensure there is adequate protection for members against the prospect that some members will experience loan repayment difficulties in the future.

The reserve has been determined on the basis of the past experience with the loan delinquency and amounts written off.

The value of the reserve is amended to reflect the changes in economic conditions, and the relevant concentrations in specific regions and industries of employment within the loan book.
