

CAPITAL REQUIREMENTS

Capital requirements in the ADI is determined by the risk weights of the relevant assets held with the minimum required capital to over 8% of the risk weighted assets. The ADI maintains a capital policy level of Minimum 13.50% and a capital target of 15.00%. The level of capital as at 31 March 2022 is 15.64%.

The risk weighted assets for each asset grouping as set out in the table below is determined by the APRA Prudential Standard APS 112. These are prescribed risk weights to measure the level of risk based on the nature and level of security supporting the assets recovery.

The risk weighted assets held as at the end of the quarter ended 31 March 2022 are as follows:

Table A Risk Weighted Assets By Asset Class

	Prescribed		
	RWA		
	\$		
	Current quarter Previous qu		
	31 March	31 December	
	2022	2021	
(a) Capital requirements (in terms of risk-weighted			
assets) for credit risk (excluding securitisation) by			
portfolio;			
Loans - secured by residential mortgage	36,619,412	36,306,667	
Loans - other retail	7,179,653	7,508,550	
Liquid investments	4,174,140	4,801,143	
all other assets	432,395	731,336	
Total credit risk on balance sheet	48,405,599	49,347,697	
Total credit risk off balance sheet (commitments)			
 Undrawn financial commitments (overdrafts, credit cards, line of credit, Loans approved not advanced, guarantees) 	1,508,658	2,214,407	
 Capital requirements for securitisation 	-	-	
(b) Capital requirements for market risk.	-	-	
(c) Capital requirements for operational risk.	8,506,576	8,506,576	
Total Risk Weighted assets (Sum above	EQ 420 922	60.069.670	
components)	58,420,833	60,068,679	

CAPITAL HELD BY THE ADI

The capital held by the ADI exceeds the policy and minimum capital prescribed by the APRA Prudential Standards. This excess facilitates future growth within the ADI.

The capital ratio is the amount of capital described in Table B divided by the risk weighted assets.

Table B

	Capital \$		Capital Capital \$		al Ratio
	Current quarter 31 March	Previous quarter 31 December	Current quarter 31 March	Previous quarter 31 December	
Common Equity Tier 1	2022 8,903,419	2021 8,847,467	2022 15.14%	2021 14.68%	
Tier 1	8,903,419	8,847,467	15.14%	14.68%	
Total Capital	9,197,101	9,134,755	15.64%	15.16%	

CREDIT RISK

(i) CREDIT RISK – INVESTMENTS

Surplus cash not invested in loans to members are held in high quality liquid assets. This included the funds required to be held to meet withdrawal of deposits by members of the ADI.

The ADI uses the ratings of reputable ratings agencies to assess the credit quality of all investment exposure, where applicable, using the credit quality assessment scale in APRA Prudential Guidance in APS112. The credit quality assessment scale within this standard has been complied with.

The Table C below excludes the Equities and Off Balance Sheet exposures. Off Balance Sheet exposures are set out in the Table E that follows.

The exposure values associated with each credit quality step are as follows in Table C:

Table C Current Quarter 31 March 2022

CREDIT RISK - LOANS

The classes of loans entered into by the ADI are limited to loans; commitments and other non-market off-balance sheet exposures. The ADI does not enter into debt securities and over-the-counter derivatives.

Impairment details

The level of impaired loans by class of loan is set out below:

- Carrying Value is the amount of the balance sheet gross of provision (net of deferred fees)
- Past due loans is the 'on balance sheet' loan balances which are behind in repayments past due by 90 days or more but not impaired
- Impaired loans are the 'on balance sheet' loan balances which are at risk of not meeting all principle and interest repayments over time
- Provision for impairment is the amount of the impairment provision allocated to the class of impaired loans
- The losses in the period equate to the additional provisions set aside for impaired loans, and bad debts written off in excess of previous provision allowances.

The impaired loans are generally not secured against residential property. Some impaired loans are secured by bill of sale over motor vehicles or other assets of varying value. It is not practicable to determine the fair value all collateral as at the balance date due to the variety of assets and condition.

The analysis of the ADI's loans by class, is as follows in Table D:

<u>Table D</u> [excludes off balance sheet exposures or equities. Off balance sheet exposures are set out in the Table E that follows]

Current Quarter 31 March 2022

General Reserve for Credit Losses

This reserve is set aside to quantify the estimate for potential future losses in the loans and investments.

In addition to the provision for impairment, the Board has recognised the need to make an allocation from retained earnings to ensure there is adequate protection for members against the prospect that some members will experience loan repayment difficulties in the future.

The reserve has been determined on the basis of the past experience with the loan delinquency and amounts written off.

The value of the reserve is amended to reflect the changes in economic conditions, and the relevant concentrations in specific regions and industries of employment within the loan book.
