

TARGET MARKET DETERMINATION

GOAL ACCOUNT

About this document

A Target Market Determination (TMD) is a document which describes who a product is intended to be appropriate for based on a class of consumer's needs, financial situation and objectives (target market). A TMD is not a product disclosure statement and is not a full summary of the product features or the terms of the product. A TMD should not be used as a substitute for financial advice.

It helps us make sure we're keeping customers at the centre of our approach to the design and distribution of our financial products. The design and distribution obligations are intended to help consumers obtain appropriate financial products by requiring issuers and distributors to have a consumer-centric approach to the design and distribution of products. A TMD describes conditions around how the product can be distributed to customers. It also describes the trigger events or circumstances where we may need to review the TMD.
